Home Living Solutions Walk In Bathtubs receives 50+ Smart Choice Award for 2009 from the 50+ Housing Council and the Sales and Marketing Council of Southern California

Home Living Solutions was honored at the Building Industry Association of Southern California / 50+ Housing Council breakfast at the Radisson Hotel in Newport Beach on April 16th 2009 for their superior product aimed at providing a safe, therapeutic and easy way to bathe in the comfort of your own home.

A panel of judges looked at which products or services best exemplified very specific criteria. Special consideration was given to products that were specific to aging adults. They looked for submittals that were green, sustainable, energy efficient, environmentally friendly, innovative and related to Universal Design.

Upon accepting the award, HLS representative Jack Gasper stated "at Home Living Solutions it's all about quality and service, we test our products more than anyone we know in the industry and take great pride in providing a product that allows seniors to safely bathe and stay in their homes for as long as they want. We will continue to add new features and test new materials to be sure we make the best walk in bathtub you can buy".

HLS to add more Walk in Tub Models to it's 2009 product line

2009 will be a year of growth for Home Living Solutions with the introduction of the 3052 model that will be 40" in height which will add 4 more inches of water for that deep soak or air/hydro massage you have been waiting for. Also, under certification testing soon will be their new Acrylic Builder Series and Dignity Series using new technology to manufacture the highest quality walk in tub on the market to date.
